

# Have your say on the A12 Major Road Network Improvements Scheme

We're consulting on a range of proposals along the A12, between the A14/Seven Hills junction and the A1152/Woods Lane junction. These proposals would help to tackle congestion, provide space for future growth and improve conditions for all road users including pedestrians and cyclists.

## These proposals include:

- 1 New dual carriageway section between the B1438 and B1079 at Woodbridge.
- 2 Upgrades to key junctions along the A12.
- 3 Public transport improvements, including a new bus-link, and a new mobility hub in Martlesham.
- 4 Walking and cycling improvements, including upgrading the existing Martlesham footbridge.
