

Hello, I am

Charis Gates

**Trainee Educational
Psychologist**

I am learning how to be an Educational Psychologist. I have worked with children for a long time and before this job I was a primary school teacher.

All about me

I like to work with people by talking and listening.

I like learning new things and working together to find creative ways to approach things.

I get lost very easily and should pay more attention to my surroundings!

What people appreciate about me
I am calm, smiley, supportive and organised.

What happens when you work with me?

- I would like to meet you, and maybe do some work together, either in school or online.
- I might also watch some of your learning.
- I might ask you questions, play games, do some questionnaires or some drawing.
- I would like to listen to your views and what is important to you.
- I might meet with your parents or teachers to think about ways to help you.
- I might write things down to help me remember.
