

The **Culture Project Fund** has been designed to invest in Arts and Museum projects that deliver against Suffolk County Council key priorities. These will be projects that look after our health and wellbeing, strengthen our local economy, protect and enhance the environment and provide value for money for our residents.

Projects that are successful in securing funding will have a positive impact on one or more of the following

### Health & Wellbeing projects will...

- Encourage more people to take part in cultural activity
- Be delivered directly with and for vulnerable people
- Use culture to support people to build healthy behaviours
- Be designed to reach those in most need

### Projects that strengthen the economy will...

- Support skills development
- Support social enterprise
- Support the visitor economy

### Projects that provide value for money will...

- Promote environmental awareness
- Support care for the environment
- Celebrate the natural heritage landscape
- Reduce carbon emissions

### Projects that protect & enhance Suffolk's environment will...

- Attract external funding
- Build on track record and create economies of scale
- Bring together partners with key skills for delivery
